DETAILED ACTION

Allowable Subject Matter

1. Claims 1-4 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Re claims 1-4, prior arts do not teach or suggest the combination of a wire harness excessive length absorbing device with a case and a cover having an inlet formed in a side wall adjacent the rear wall, and an outlet formed in the rear wall for the wire harness; said harness roller reciprocally moving under acting force of the urging member, and a harness guide mounted on the outlet and curved toward the inlet, such that the wire harness is pulled into the case from the harness inlet and turned in the U-shape about the wire harness roller and further turned by the harness guide and pulled out of the case.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

3. Applicant's arguments and amendments filed May 17, 2007 have been fully considered and finds the argument along with the amendments to the claim persuasive. Examiner agrees that the prior art does not teach that the urging member urges the harness toward the inside of the case for example.
